AFS-71B2 1971-75 BB 28" Core 29.5" W x 19" H..... 119.95 ea.

AFS-1912

**This fan shroud duplicates the original GM fan shroud part number 6261914 used on all 1969-70 SS396 or SS454 models. This shroud was used on both standard 26" core radiators as well as heavy duty 28" core radiators. This shroud did not fully cover the entire 28" radiator but this is correct. Use our AFS-71B2 if you wish to cover your entire 28" radiator.*

AFS-71B2

*1971-72 uses a 2 piece design. 26" core is standard, 28" core is HD.

RADIATORS & ACCESSORIES

CCS-EC289

CCS-CCFK10

CCS-CCFKRL

Aluminum Radiators by Champion Cooling Systems

These aluminum radiators are made to the highest of standards paired with unequaled quality, precision and workmanship. The highest of aluminum grades available are used in all manufacturing processes. All Champion aluminum radiators are constructed using 100% welded seams brazed core technology and absolutely no epoxy. All Champion radiators come with a lifetime limited warranty and are made to install with little or no modifications using your original mounts giving you the confidence you deserve. Choose from the following series:

- EC Economy Core Series - 2Row - Two Rows of 3/4 inch Tubes = Approx. 400-600+ Horsepower Cooling Capacity.
- CC Champion Core Series - 3Row - Three Rows of 5/8 inch Tubes = Approx. 600-800+ Horsepower Cooling Capacity.
- MC Monster Core Series - 4Row - Four Rows of 5/8 inch Tubes = Approx. 800-1200+ Horsepower Cooling Capacity.

Requires 2 - 12" fans + 1 relay

CCS-EC281	1964-65 Economy Core Series 21-3/4 x 28 OD	196.95 ea.

COLD-541MFK

Cold Case Radiators

These COLD-CASE radiators are TIG welded 100% aluminum. These radiators have dual oversize 1" cooling rows making them more efficient than four 1/2" rows seen on 4 row models. Cold Case aluminum radiators cool 20% better than OEM copper radiators and are more than 50% lighter. They are original in appearance with OEM style stamped tanks for strength and that OEM original look. Once painted, they look like originals to all but the concourse fanatic. Each radiator is pressure tested, direct fit and carries a Lifetime Warranty!

Frostbite Performance Cooling

High-Horsepower street cars and race cars can be a challenge to keep cool. A proper cooling system starts with Frostbite. When it comes to keeping your ride cool, Make it Frostbite!

Aluminum Radiators

Our line of Performance Aluminum Radiators are available in 2, 3, and 4-row sizes as well as specific LS-Swap applications.

- 100% TIG welded (brazed) seams
- Aircraft quality aluminum core, fittings, and tanks (up to 30% weight savings)
- Billet Aluminum Filler Neck and OEM Style Brass Petcock
- Custom Frostbite High Performance 16lb. radiator cap
- Polished top and tanks for custom show appearance
- 2-Row Radiators supporting applications with 300-500 horsepower
- Transmission cooler provisions

AIR CONDITIONING

VA-964464

Vintage Air SureFit kits are the most complete, bolt-in climate control systems available for your Chevelle. SureFit kits install easily and utilize most of the factory sheet metal and body features and are engineered as "vehicle specific" complete systems.

Our SureFit kits are designed to place the evaporator case and air duct hoses behind the dash for a factory-clean look. In most cases, the SureFit system will be controlled by your stock dash controls using our exclusive patented "Cable Converters." In some applications, a new "factory" look control panel is included with the kit.

All SureFit systems provide full OEM-style operations including air conditioning, floor or vent exit heating and a powerful dehumidified defroster. To retain a true factory look, the AC air exits through the factory dash louvers, if originally equipped in your car's dash. SureFit kits also offer the most complete and straightforward installations available anywhere. Our award-winning instruction booklets and carefully engineered system packages should make your SureFit installation job simple, fun and very cool!

The Gen IV is Vintage Air's most powerful and intelligent climate control system available for your Chevelle. The Gen IV uses an exclusive fully electronic microprocessor control system that eliminates cables or vacuum connections. Separate high-capacity copper parallel-flow heat coil and aluminum plate-and fin-cooling coils provide outstanding performance and instant temperature adjustments.

Complete kits include the evaporator unit and mounting brackets, louvers (where required), duct hose, wiring harness, patented Electronic Cable Converters, compressor, engine brackets, condenser with brackets, preformed refrigerant lines, drier, fittings, hardware and installation instructions.

Features Include:

- Fly-By-Wire fully electronic servo motor controls with no cables or capillary tube to route
- Infinite just-right-temperature air blending
- Infinite blower fan speed adjustment (3-speed on factory air models)
- High-volume dehumidified defrost mode
- Separate high-capacity aluminum plate & fin cooling coil
- Copper/brass CuproBraz™ parallel-flow heater coil
- Mounts behind the dash
- Uses your factory system controls with our patented Electronic Cable Converters
- Flat steel firewall cover panel
- Replacement molded glove box (reduced capacity)
