Dear valued muscle car enthusiast,

When we started Ground Up Restoration 30 years ago, we had one thing in mind: to bring the best quality restoration parts to everyone, from the weekend driver to the 1000 point restoration. As the years progressed, Ground Up grew from a one-person company to the 40,000 square foot facility that we now operate out of Naugatuck, Connecticut. Though we have grown, we are still no different from you. We have maintained the same belief that our customers deserve not only the best parts but also the best customer service available.

With over 30 completed muscle car restorations under our belt, including our original 1968 Chevelle SS396 owned since 1980, to our insane pro-touring 1978 Z/28 LSX Camaro, there's nothing we have not seen or done!

Your restoration is important to us. Whether you need parts, advice, or tech help, Ground Up is here for you! We have some of the best and most knowledgeable customer service and tech reps in the business, waiting to take your call.

Ground Up understands that your restoration is a major part of your life. We are grateful to have the opportunity to be a part of this process for the past 30 years and look forward to 30 more years of continued service.

Thank you for your business, and for being a part of the Ground Up family.

Sincerely,
Team Ground Up

Ground Up Customer Scott's 1970 Nova Super Sport

Scott has owned his 1970 Nova Super Sport since 1977, it was the first car he's owned since he was 16 years old. Most recently Scott's Nova underwent a 6 year restoration!

Ground Up Customer Pat & Brandon's 1968 Nova

It was time for Brandon's first car and he had his heart set on something most teenagers don't even know exists, a classic muscle car.

Ground Up Customer Henry's 1971 Nova

Henry bought this 1971 Nova in September, 2008, and after a year of hard work, it came out beautiful!

Ground Up Customer Neal's 1972 Nova

Neal doesn't just keep this car in the garage; he enjoys it, having driven it in 10 states so far and even taking it on a 1,000 mile road trip through Canada!

OER Interior Paint

OER's revolutionary formula provides 40% more coverage than standard dyes and lacquers and actually penetrates and molecularly bonds to the surface to permanently seal in the color. Dries to the touch in 45 seconds, forms a complete bond in just 10 minutes. UV stable and color fast, it will not crack, flake or peel. For use on vinyl, leather, ABS plastic, polycarbonate, polypropylene, polyurethane, acrylic, lexan, fiberglass and recycled plastics. These paints are designed to match our colored PUI interior products. 12oz aerosol can.

HDX-69C-NOV-S

HDX-66C-NOV-K

1963-1976 Dakota Digital HDX Instruments

Chevy's first economy car is now a favorite for speed freaks of all kinds. The small instrument housing of the 1963-1965 Chevy II isn't much to work with, but the HDX instrument system packs six analog readings with analog readouts, plus a full color TFT for additional information. Use your stock or reproduction bezel, available separately; and can be used in 1962 models with the addition of a 1963-65 bezel. Available with your choice of black or silver alloy gauge-face styling, each HDX system allows the user to select independent illumination colors for the gauge readings and needles, as well as the message centers. Calibration and personal settings are manipulated with the built-in, capacitive-touch buttons, or the available Bluetooth App for Apple and Android devices. Each needle hub is black nickel plated spun-aluminum to match the buttons. All HDX instrument systems feature dead-faced indicators (turn signals, high beam, check engine, cruise control, parking brake, plus two user-definable) and a red, settable warning light for each gauge. With our central control box, installation is greatly simplified with vehicle harness sourced signals and supplied, solid state sending units connecting cleanly to their respective terminals.

Looking to replace your Nova carpet with something that meets your quality and originality standards? Look no further than our ACC brand OEM carpet sets. We are proud to offer these carpets in several styles, from factory original 80/20 rayon and nylon looped blend (cutpile for 1974-77 models) to our new ESSEX Style for those who are looking for a "modern" auto style carpet seen in high end Mercedes or Porsche cars, to our "Mass Backing" carpet sets which offer factory installed sound deadening material built in for an overall quieter, cooler and more comfortable interior.

ALL of our ACC brand carpets are factory molded with correct heel pad & dimmer switch grommet for a model specific fit.

Molded Carpet Kits

Looking to replace your worn original carpet with something that meets your quality and originality standards? Look no further than our ACC brand OEM carpet sets. These are not those cheap carpets that fade out in a year or two! Unlike other brands, all ACC carpets feature a true 80/20 rayon and nylon "looped" blend for 1962-74 Novas and Cutpile for 1975-79 Novas. All are molded for a perfect fit. We include original style die stamped sound deadener constructed of heavy insulation as factory. Carpets and sound deadener kits are also available individually.

QuietRide AcoustiShield

The AcoustiShield kit is a multi-stage automotive sound dampening system to give your muscle car the quiet riding comfort found in today's new cars. AcoustiSHIELD kits are designed on state of the art auto acoustic technology to insulate and control the noise, vibration and heat in the passenger cabin. Kits are pre-cut and come with easy to follow installation instructions: The first stage consists of pre-trimmed, self-adhesive sound damper pads which are bonded to strategically located trouble spots to control body panel vibration and noise. These spots are mapped and labeled in the detailed instructions. Complete Kits include Body, Cowl, Floor, Roof (except convertible) and Trunk Floor Kits.

Firewall Insulators

A Firewall Insulator panel by QuietRide Solutions is your first line of defense to stop engine noise and heat from entering the passenger cabin. This firewall panel is an exact OEM replacement and is year, make and model specific. It is molded to fit the engine setback and firewall contours and fits like a glove.

USA 740 AM/FM 300 Watts

The USA-740 offers the same classic look that Custom AutoSound has always been known for with today's latest features. Now, with built-in Bluetooth (microphone included), answer calls and get Bluetooth streaming music from your Bluetooth capable phone or Bluetooth compatible device. A solid 300-watt peak power should be all the juice you need, yet the USA-740 has Hi 4 volt, 4 channel RCA pre-outs and a subwoofer RCA pre-out for additional amplifiers. The USB input allows you to plug in a USB flash drive for playback of MP3/WMA/FLAC/WAV song files. A front 3.5mm mini jack auxiliary audio input and a rear RCA auxiliary audio input provide versatility for options like satellite radio, iPod or any portable player you wish to use. Match the dominant color of your instrument cluster with user selectable multiple LCD color choices with LCD dimmer control. The AM/FM RDS tuner shows station, song and artist on the LCD display. For those of us committed to music collections on compact disc, the USA-740 fully controls the optional Custom AutoSound CD-1 CD player. Classic style with today's sound and performance taking every road and curve with you in your Nova.

Custom Autosound USA-630 AM/FM 240 Watts

The USA-630 is the pinnacle of 30 years of evolution in Custom Autosound's quest for the perfect classic car radio. This radio has large OEM style push-buttons that give a perfect look in a classic dash. Although it looks classic it has the latest modern features. USB input on the back of the radio. This jack is on an 18" extension which allows you to place it in the glove box or ash tray for easy access (no unsightly wires or plugs hanging out of the front of the radio). The new alpha numeric display (30% larger than previous models) shows the song/artist/album (id3) titles during playback of MP3/WMA files. With the built in CD controller you have complete control (no FM modulation) of CAS's 10 disc CD changer.

With 240 watts the radio should have all the power you may need, if you want more there are four pre-outs jacks on the back of the radio for optional amplifiers. The back of the radio also has auxiliary audio input for satellite radio or any portable player you may wish to use.

- AM-FM Stereo • USA/Euro Tuner • Power Antenna Lead • Alpha Numeric id3 Display for MP3/WMA files • Electronic Tuning and Volume Control • 4 Way Fader • Left Right Balance • Digital Clock • 16 Pre-sets (12FM-4AM) • 4 Channel RCA Pre-outs • Separate Bass and Treble • 2 Channel RCA Auxiliary Input for Satellite / iPod etc.

SECRET-SST

Secret Audio SST

Secretaudio SST is a hidden audio system that offers great flexibility for mounting in any type of vehicle. The main receiver/amplifier unit is usually hidden under the seat or behind the dash. A 10ft cord from the Tuner/Amp plugs into a LCD display. The system can be operated from up to 40 feet away with the included RF (radio frequency) remote.

Included with the system is a flush mount bezel for console or dash mounting. The small dimensions of the flush mount system allow you to install the LCD display almost anywhere. The LCD also comes with a bracket mount for easy installation in the glove box, under the dash, in the ashtray, sunvisor, console, or wherever you choose. Since its only 1" deep its especially handy for custom or streetrod applications where there may be wiring or ducting routed behind the panels you wish to utilize for mounting. When your installation is finished you'll be rewarded with a quality professionally installed look.

Features:

- AM/FM Stereo 200 watts 4x50 • Auxiliary Audio Input • USB MP3/WMA Flash Drive Player • iPod® Direct Control Interface (built into tuner/amp unit) iPod Docking Cable Included • Alpha Numeric LCD Display Shows Artist / Song Titles for USB, iPod® and Satellite Radio • Satellite Radio Input (for optional Sirius® satellite radio tuner) • Direct CD Changer Control (CD changer optional)
- 4 Channel 3 Volt RCA Pre-Outs (for optional Amplifiers) • Subwoofer Pre-Out (for optional Subwoofer Amplifier)
- Electronic Volume, Bass, Treble, Balance, Fader • 5 Selectable iEQ Curves – pop/jazz/classic/beat/rock
- Zero Memory Current Draw (will not drain car battery when unit not in use) • 24 Station pre-sets (18FM / 6AM) • Power Antenna 12V Trigger Lead

Factory Style Radial Tires

If you're going for an authentic restoration, be sure that you don't overlook the tires! Previously, this meant sacrificing modern ride quality and handling characteristics for an authentic appearance, but now you can have the best of both worlds with these modern radial tires that have a period correct appearance. This factory style Firestone Wide Oval tire is an almost exact replica of the original, engineered from the ground up to provide excellent ride quality, tread life and safety, while retaining the correct tread pattern and raised white lettering.

Electric Vacuum Kit

If you have a big cam and low vacuum is making it tough for your power disc brakes to work properly, then this electric vacuum pump kit will solve your problems! A minimum of 16 inches of vacuum is critical to ensure that your power disc brakes are functioning and this kit ensures that your vacuum stays above that level so you will never have to worry about losing your brakes when you need them the most. The system automatically activates when the vacuum falls below that critical level and turns off when the engine is producing enough vacuum.

This kit includes an efficient electric pump, relay switch, distributor with vacuum switch, wiring, hoses and brackets. This system requires a 12V negative ground system for operation.

NEW PRODUCT: QA1 SUSPENSION

QA1 Upper & Lower Tubular Control Arms

QA1's Street & Race Control Arms. The street arms use a factory replacement ball joint and polyurethane pivot bushings. These work great on vehicles used primarily for cruising and long distance events. The race arms utilize a QA1 Low Friction Ball Joint and low friction, low deflection pivot bushings, providing the added performance needed for drag racing, pro-touring and hardcore street applications. Configured for QA1 Pro Coil Systems, these control arms feature powder coated tubular construction for increased strength and great looks. A bolt-in spring adapter is available separately to allow the control arms to be used with stock springs. All of the upper arms feature an offset cross shaft letting you quickly and easily adjust camber. All of these arms are designed to add 3-4 degrees of caster and 0.5 to 1 degree of negative camber when used together. Includes mounting hardware. Made in the USA.

QA1 Sway Bars

QA1-52816

Give your chassis the stability it needs to keep your tires planted on the road. These sway bars are an easy bolt-on upgrade to help reduce body roll and handle corners better. For maximum strength and durability, QA1 sway bars are manufactured from either lightweight hollow-core (4130) chromoly steel or heavy duty solid-core (1045) cold formed steel. The bars are formed using precision CNC equipment for a true bolt-on installation, then gloss black powder coated for durability and corrosion resistance. Sway bars include new mounting components to replace old and worn out sway bar bushings and end links. Made in the USA.

QA1-GD401-10500C

QA1-GS401-10400A

QA1 Front Coilover Shock Kits

The QA1 Pro Coil System is a great option for anyone looking for fully adjustable ride height and valving control. Choose a spring rate and adjustability that fits your driving style, adjust the valving to match and you are on your way. These shocks also utilize a fully threaded body that allows you to adjust your ride height for the perfect stance or to finely tune the weight balance for superior handling. Specially designed for QA1's Pro Coil Systems, the American-made lightweight high travel springs have fewer coils and a smaller wire diameter, resulting in increased travel due to the larger distance between the coils. They reduce unsprung weight and react faster, optimizing suspension performance. Adjustable Pro Coil System Features: Available in MOD Series, independent compression and rebound double adjustable, simultaneous compression and rebound adjustable, or drag R Series adjustable. Lightweight Billet Aluminum Coilover Shocks High Travel Springs Easy, Bolt-In Installation Ride Height Adjustable, Made in the USA

Megashifter

The B&M Megashifter has it all, form, function and classic style. This all adds up to bring you a quality shifter that's been one of the most popular automatic shifters of all time. First off let's talk function. The Megashifter's positive ratcheting function won't allow you to over shift and miss a gear at that critical moment, along with the reverse lockout feature meets NHRA/IHRA safety rules for those weekend grudge races at the track. The look and feel of the T-handle and accordion style shift boot really shows off the racing heritage of the Megashifter.

HOL-19-112

1962-79 Sniper Fuel Injection Fuel Tanks

Converting the carbureted fuel system on your car or truck over to EFI can be a daunting task. We have made this conversion easy with our complete tank and fuel system kits! The heart of a fuel system begins with the fuel tank. When converting to EFI, it is crucial that you do not contaminate your new parts with dirt, rust and sludge from an old fuel tank. Sniper fuel tanks are designed to meet or exceed the quality of your factory fuel tank. Sniper tanks are made from steel with a galvanized finish that are manufactured to the OEM specifications.

Hooker Cast Iron LS Exhaust Manifolds

Hooker cast iron exhaust manifolds have been designed to hug close to the engine block so they fit into a wide variety of replacement and engine-swap applications. Their contoured design aims the exhaust directly at the exit port for improved flow. Being cast iron means they will provide years of leak-free performance with less under hood noise than traditional headers. Plus, their shorty design means you can route exhaust tubing close to your frame/floor pan for maximum ground clearance. "Hook" up your GM LS engine with Hooker cast iron manifolds today!

- Intended for all GM LS (except LS7 and LS9) engine swap applications where durability, quiet operation, emissions compliance and leak-free sealing is desired
- Cast from Hi-Silicon-Moly Ductile Iron to provide durability and corrosion resistance
- 2.25-inch outlet diameter
- Free-flowing for good performance and catalytic converter efficiency
- Recommended for strong performance on engines making up to 500 horsepower

Hooker Competition Headers

Hooker Competition headers offer the best value in the high performance header market. Designed for the value-conscious buyer who is running either a "stock" or "mildly-modified" engine, these headers offer premium features at a very competitive price. Made of durable 16 gauge mild steel tubing, header design utilizes a long transition collector to reduce back pressure and increase exhaust flow. A perfect sealing surface is assured with the 5/16" machined flanges, with welded O-ring seals. Experience has proven that this flange size is ideal to maintain header integrity and be pliable enough to seal each exhaust port. Tubing is mandrel-bent to maintain metal strength and provide consistent tube diameter at radii to maximize performance.

- All necessary hardware included for a complete installation
- Designed for easy, trouble-free fit
- Industry's best welds for durability
- Long transition collector for decreased back pressure
- Tuned-length primary tubes for street performance

Flowtech Afterburner Headers

Flowtech's Afterburner Turbo Chamber Headers represent the first new major design change in exhaust technology in decades. This design combines the race-proven 4 into 1 design with the torque managing capabilities of a Tri-Y header. The turbo chamber helps smooth out exhaust turbulence for increased performance and a broad power curve.

- Horsepower and torque increased over conventional header design
- Big 3" secondary collector for reduced back pressure
- Tuned-length primary tubes combine with velocity tube to smooth out exhaust pulses
- All hardware and premium gaskets included for a complete installation
- Patented velocity tube increases cylinder scavenging

Vintage Air SureFit kits

Vintage Air SureFit kits are the most complete, bolt-in climate control systems available. SureFit kits install easily and utilize most of the factory sheet metal and body features and are engineered as "vehicle specific" complete systems. Our SureFit kits are designed to place the evaporator case and air duct hoses behind the dash for a factory-clean look. In most cases, the SureFit system will be controlled by your stock dash controls using our exclusive patented "Cable Converters." In some applications, a new "factory" look control panel is included with the kit. All SureFit systems provide full OEM-style operations including air conditioning, floor or vent exit heating and a powerful dehumidified defroster. To retain a true factory look, the A/C air exits through the factory dash louvers, if originally equipped in your car's dash. SureFit kits also offer the most complete and straightforward installations available anywhere. The Gen IV is Vintage Air's most powerful and intelligent climate control system available. The Gen IV uses an exclusive fully electronic microprocessor control system that eliminates cables or vacuum connections. Separate high-capacity copper parallel-flow heat coil and aluminum plate-and fin-cooling coils provide outstanding performance and instant temperature adjustments. Complete kits include the evaporator unit and mounting brackets, louvers (where required), duct hose, wiring harness, patented Electronic Cable Converters, compressor, engine brackets, condenser with brackets, preformed refrigerant lines, drier, fittings, hardware and installation instructions.

Features Include:

- Fly-By-Wire fully electronic servo motor controls with no cables or capillary tube to route
- Infinite just-right-temperature air blending • Infinite blower fan speed adjustment (3-speed on factory air models)
- High-volume dehumidified defrost mode • Separate high-capacity aluminum plate & fin cooling coil
- Copper/brass CuproBraz™ parallel-flow heater coil • Mounts behind the dash • Uses your factory system controls with our patented Electronic Cable Converters • Flat steel firewall cover panel • Replacement molded glove box (reduced capacity)

HOL-0-1850SA

Holley Carburetors

Holley is one of the most trusted carburetors of all time! Its 600 CFM of airflow, vacuum secondaries, single fuel inlet and mechanical or electric choke makes it amazingly universal. The 4160 carbs are constructed from aluminum which compared to its zinc counterpart equates to a weight savings of 40%! Being aluminum also means it will hold its shine and can be hand polished for a custom look! Don't trust your performance to just anyone, Holley is the only modular carburetor company that has been in business for over 100 years and has powered every NASCAR champion since the 60's.

Quick Fuel Technology Carburetors

"Innovators in fuel systems" is more than just a by-line. Quick Fuel Technology, since it's inception in 1998, has grown exponentially in its 21 years of business culminating into the benchmark by which performance carburetors are measured.

QF-HR-600

QF-SS-650

The Hot Rod Series is a versatile performer designed for the most discerning street enthusiast. Featuring lightweight die-cast aluminum components, the HR-Series offer all the tunability you would expect from more expensive racing carburetors, including changeable bleeds, idle feed, power valve channel restrictions and four-corner idle. Offered in either vacuum or mechanical secondary models, all Hot Rod Series carburetors feature electric chokes and dual metering blocks for added performance. Now available in a 450 cfm model for applications with small displacement engines.

- All models feature a fully adjustable electric choke for easy starting
- Dual metering blocks w/ 4-corner idle for smooth and efficient idle quality
- Screw-in air bleeds and idle feed restrictions for quick unsurpassed tuning capability
- Dual inlet fuel bowls with sight glass windows for safe, easy float adjustment
- Universal throttle lever with sealed throttle shafts for smooth operation
- Tunable secondary opening rate
- Tumble polished for long lasting shine

Super Street Series carburetors combine street-friendly drivability and track-capable performance in a single value-oriented package. Setting them apart from ordinary street carbs, they feature billet dual metering blocks and throttle-bodies that offer tighter tolerances and eliminate porosity. Not only are Super Street Series carbs available with both vacuum or mechanical secondaries, QFT™ also offers models designed and calibrated specifically for E85 fuel and blow-through forced induction applications. Running alternative fuel or boost no longer requires an expensive custom carburetor. All SS-Series carburetors are equipped with universal throttle levers to accommodate a variety of models. Bolting on the ultimate street/strip carburetor has never been easier.

- Red billet dual metering blocks & silver billet throttle bodies for improved durability
- Changeable idle, high-speed air bleeds & power valve restrictions
- Dual inlet fuel bowls with dual sight glass windows for easy float adjustment
- 4-Corner idle for precise idle and smooth transition
- Fully-adjustable electric choke with easy one wire hookup
- Race-ready with notched secondary floats and jet extensions
- Polished or Black Diamond™ finish available (some models)

QF-SQ-650

Street-Q carburetor is intended to deliver legendary Q-Series performance to hardcore street enthusiasts at a reduced price. The major differences between the Street-Q and the race-bred Q-Series is the substitution of cast metering blocks and a cast throttle body in place of fully-machined billet components. All of the critical functionality is retained - 2-circuit metering, downleg boosters, changeable idle and high-speed air bleeds and 4-corner idle. A universal throttle lever to accommodate a variety of models.

- Lightweight die-cast aluminum components
- Changeable idle and high-speed air bleeds
- 2-circuit metering - 4-Corner idle system
- Downleg boosters
- 700-R4 mounting holes

QF-Q-750

Q-Series Race carburetors are purpose-built for the dragstrip. To combat the g's experienced during hard launches, Q-Series carbs are equipped with notched floats and secondary jet extensions. The high-flow aluminum main body isn't just lightweight, but it also features recessed air bleed cavities for improved air flow. Die-cast venturi are machined to exacting tolerances for outstanding throttle response. Billet metering blocks ensure a uniform fuel curve, while throttle-bodies enhance durability. For those days when track conditions vary from one pass to the next, QFT's QuickLink system makes adjusting the secondaries easy on models equipped with mechanical secondaries. The Q-Series is our most comprehensive line of carburetors, with applications available for use with gasoline, methanol and E85 fuels, forced induction, drag race, circle track and comes in both vacuum and mechanical secondary models.

- Lightweight aluminum main body
- Mechanical secondary
- Aluminum fuel bowls with dual sight glass windows
- Billet metering blocks with 4-corner idle system
- Changeable idle feed and power valve channel restrictions
- PTFE coated and sealed shafts that have been slabbed for added air flow
- Red anodized billet metering blocks and throttle plate

QF-FX-4710

QFX-Series stands as the flagship model in QFT's lineup. Raised air horns improve entry angle into the venturi while ensuring undisrupted flow over the air bleeds. Annular boosters with CNC-machined billet aluminum inserts provide increased air flow, a stronger signal and less turbulence. QFX carbs offer unparalleled fuel atomization with annular boosters specific for either gas, methanol, or E85 fuels. Five-emulsion billet metering blocks and four-corner idle circuits offer flexible tunability that today's high-horsepower engines demand. Ready to run out of the box, the QFX-Series carburetor will help you get to the winner's circle.

- QFX aluminum main body w/raised venturi
- Billet aluminum metering blocks with screw in restrictions
- Aluminum fuel bowls with dual sight windows and fuel inlets
- Viton .130" Needles and Seats
- Billet Aluminum annular booster inserts
- QuickLink™ adjustable secondary opening adjustment

MSD-8362

MSD HEI Distributor

For value conscious enthusiasts, the Street Fire HEI is a great choice! We know the importance of a centrifugal advance in a distributor so our engineers made sure that the Street Fire received an advance assembly with coated weights and welded weight pins (not just pressed in like other models). Another area that you cannot afford to scrimp on is with a distributor gear. The Street Fire is fit with the same gear that is used on our Pro-Billet models. The metallurgy of this gear has been refined for years to perform through the harshest conditions

- MSD-8362 All, Red Cap 4 Pin* 171.99 ea.
 - MSD-8365 All Billet, Red Cap 4 Pin* 457.99 ea.
- Note: Standard deck height blocks only. Will not fit gen 5 and 6 big blocks. *Refers to the amount of terminals on the ignition module. No volume discount.

MSD-8360

MSD Pro Billet Distributor

The Pro-Billet Ready-to-Run distributor is the perfect upgrade for outdated points distributors or bulky HEIs. Simply install the distributor in the engine, connect three wires, the coil and fire it up!

Mallory Unilite Distributor

A legend returns - the tried and true Mallory Unilite Distributor line is back! The easy three wire hookup of the Unilite makes running a stock coil, a Mallory performance coil and even a Mallory HyFire CD ignition a snap. Supplied with a quality cap and rotor, the Mallory Unilite also provides a fully adjustable mechanical advance to dial in the perfect timing curve for a multitude of engine combinations. The Unilite features a compact housing that lends itself well to applications where space is a premium due to tight firewall clearance or blower applications.

- MAL-3748201 All SBC, BBC* 325.99 ea.
- *Standard deck height blocks only. Will not fit gen 5 and 6 big blocks. No volume discount.

MSD-6201

MSD Ignition

An MSD Ignition will improve the overall performance of your engine thanks to its high output capacitive discharge sparks. Below 3,000 rpm the ignition delivers multiple sparks that will clean up the idle, improve starting and throttle response. If you're looking to improve the performance of your modified mill, we have the answer. Whether you've done a cam swap, or bolted on a carb, intake and headers the 6A is a surefire way to harness all the ponies under your hood. Step up to the 6AL to have an engine saving rev limiter.

K&N Oil Filters

K&N Performance Oil Filters have been specially designed for professional installers and service providers. Their high flow design can help to improve engine performance by reducing oil filter restriction. Performance Gold Oil Premium Wrench-Off Oil Filters have become a favorite among consumers for its durability and easy removal. Our Performance Silver Oil Filters have a fluted canister shape so they can be removed with a traditional oil filter wrench commonly available to commercial installers. These Performance oil filters provide outstanding filtration and engine protection throughout their service life. They are engineered to handle all grades of synthetic, conventional and blended motor oils. The pleated media provides high capacity making them suitable for extended oil change intervals when used in accordance with the vehicle and motor oil manufacturers recommendation.

Holley

Holley LS Swap Oil Pan

GM's popular LS engines are finding their way into a large variety of vehicles. They make great power, plus they're very durable and reliable. Unfortunately, the factory LS pans don't always fit or they hang too low for today's hot rods. Holley's new LS Retro-fit Engine Oil Pan is designed to help! It provides maximum clearance to the chassis and ground, plus provides an OEM fitment for durability and proper sealing.

- Provides OEM fitment- OEM oil filter mounting, OEM oil cooler port provision, OEM engine NVH suppression, OEM flange gasket and sealing, proper structural rigidity and OEM bellhousing attachments.
- Traditional high-quality cast aluminum appearance with clean exterior styling.
- Provides maximum clearance to chassis.
- Cast and machined aluminum.
- Complete kit including sump baffle, pick-up tube, sump plug, oil filter stud & oil passage cover.
- Fits GM rear wheel drive applications that were originally equipped with a Small Block or Big Block Chevy engine and traditional rear sump oil pan*.

HOL-12835	Big Block.....	93.99 ea.

Note: Not compatible with methanol or alcohol. Cannot be used with fuel injection systems.

QF-30-350QFT

Quick Fuel Technology Fuel Pumps

For the street cruiser, it's tough to beat the simplicity and reliability of a mechanical fuel pump. Quick Fuel Technology's mechanical pumps flow 110 gallons per hour and utilize lightweight aluminum housings. They feature integrated shutoff valves that are preset at 6.5- to 8 psi, eliminating the need for a separate pressure regulator. For added installation flexibility, the pump casting can be rotated to accommodate various plumbing configurations. 3/8" NPT threads. Gasoline only.

QF-30-125-1QFT

Quick Fuel Technology Electric Fuel Pumps

QFT's electric fuel pumps are perfect for combinations that are neither stock nor all out race cars. These pumps flow more than enough fuel to support between 400-750 hp. Mounting hardware and brackets are included.

- 125 GPH Flow Rate
- 14 PSI Maximum Pressure
- Features 3/8" NPT Inlets and Outlets
- Draws 4 Amps or Less at Full Load
- For Carbureted Gasoline Applications Only

HOL-12-803BP

Holley Fuel Pressure Regulator

Holley fuel pressure regulators are designed to precisely control the fuel pressure from the fuel pump to the carburetor. Too much fuel pressure for a given needle and seat assembly will overload and may cause flooding or drivability problems. Each Holley fuel pressure regulator is fully adjustable so regulating the fuel pressure to your engine's needs is simple.

12 volt operation, Preset to 7psi, 3/8" NPT ports (1 in, 1 out, 1 bypass or return), Used in systems with a return line back to the fuel tank

Rear Quarter Glass Seals

Stop the rattles and leaks in your quarter window glass by replacing the worn felt channel on your Chevy II / Nova 2 door with this 4 piece quarter window upper channel replacement kit. These channels have a chrome bead on the outer edge. Non-functional kits are used to seal the windows and restore the appearance of your Nova if the channel guide tab on your glass is missing. The windows will not roll up or down. If you have the original plastic channel guide tab please select the functional kits. Rebuild kits are the glass channels only. You must reuse your original brackets. Most cars came from the factory without the chrome bead. Please check before ordering.

DSE010104

DSE Subframe Connectors

These uniquely designed DSE weld-in subframe connectors increase your car's stiffness by connecting the front subframe to the rear frame rails. DSE subframe connectors are fabricated from 2 inch x 3 inch x 0.120 inch wall rectangular steel tubing. Laser cut brackets are included that attach the rear of the subframe to the connector for an easy, strong and simple welded joint. Unlike others, the DSE subframe connectors are barely visible from underneath the car. The rear of the connector is tapered to attach to the rear frame rails and also has a laser cut slot that conforms to the rear seat floor pan. The connectors are bent and TIG welded in a fixture for accuracy and repeatability. DSE subframe connectors do not interfere with seat attachment hardware or the installation and removal of the rear leaf spring pocket. These can be installed on coupes and convertibles and the molded factory carpet will still fit over them. DSE weld-in connectors include templates, pictures and detailed instructions.

Eddie Motorsports Billet Trunk Hinges

These billet trunk hinges are CNC machined from high quality 6061-T6 aluminum. They utilize Nitrogen filled gas struts that replace the stock torsion springs and high quality Delrin bushings for smooth reliable operation. The hinges are designed as direct fit, "bolt on" parts with some minor drilling required for fastening of the strut mount. The hinges come complete with mounting hardware, brackets (where required) and gas struts.

Rear Quarter Glass Seals

Stop the rattles and leaks in your quarter window glass by replacing the worn felt channel on your Chevy II / Nova 2 door with this 4 piece quarter window upper channel replacement kit. These channels have a chrome bead on the outer edge. Non-functional kits are used to seal the windows and restore the appearance of your Nova if the channel guide tab on your glass is missing. The windows will not roll up or down. If you have the original plastic channel guide tab please select the functional kits. Rebuild kits are the glass channels only. You must reuse your original brackets. Most cars came from the factory without the chrome bead. Please check before ordering.

Dated Spark Plug Wires

New OE style reproduction wire set correctly dated for your specific car, pre-cut and ready to install! Each set features correct colored wires and correct angle "cut" boots. The date coding identified the quarter and year in which the wires were produced. As an example, a wire date coded as 1-Q-67 would have been produced in the first quarter of 1967.

Research has shown that most cars had spark plug wires installed that were dated from 1 to 4 quarters prior to the build date of the car.

AC43

AC Delco Spark Plugs

This is a brand new set of 8 spark plugs for your Nova. These high quality reproduction AC Delco spark plugs feature the correct green AC and markings as original.

AC43	1964-70 #43	59.95 set
AC44	1964-70 #44	59.95 set
AC45	1964-70 #45	59.95 set

Note: The number on the plug refers to its operating temperature. The lower number is a cooler running plug which is typically found on the SHP high performance engines. A hotter, higher numbered plug would be used in engines where plug fouling may be or is a problem.

MAL-937C

Mallory Pro Spark Plug Wires

Burning spark plug boots in high heat applications is a thing of the past with Mallory's high temp ceramic boot spark plug wires. The ceramic boot is capable of withstanding temps up to 2,000 degrees F making them ideal for applications with close tolerance headers and any other application where boot failure is an issue. These universal sets come with HEI type and socket type distributor ends. Cut and crimp to fit. 90 Degree boots typically fit small block and the 135 degree boots typically fit big block.

HI-INTENSITY T3

T-3 Headlamps

Upgrade your weak old original T3 and Power Beam headlights with a pair of high performance headlights from Ground Up! These headlamps utilize modern bulb filaments with a much brighter high/low beam, which are considerably brighter than the original factory and Power Beam units. These fit and function exactly as original which makes installing these a breeze. They feature a T3 or Power Beam logo and look just like the originals! We tested these on our own 1969 Camaro in our warehouse and you can really see the difference!

Ground Up Pro-Touring Restomod Led Headlight Conversion

Upgrade the look of your headlights with Ground Up's brand new Exclusive Plug n' Play DOT approved headlight kit by Aroara. This easy to install headlight kit comes with everything you need for a simple install. With our included modified headlamp buckets no welding, cutting, or intense fabrication is required. This Exclusive kit is one of the only true Plug n' Play kits on the market for your Nova. Ground Up's Exclusive Aroara LED headlights are equipped with a high and low beam with a color temperature of 6000k which produces a crisp white light which greatly assists in lighting things up for you like never before. This light is also equipped with a half circle driving light (DRL) that easily integrates into your factory parking light system. You will not find a set of headlights for your Nova like this anywhere else! This kit comes complete with everything you need to convert your standard headlights to a set of new Ground Up Exclusive Aroara LED headlights.

This kit includes:

- A pair of Aroara LED headlights
- 2 modified headlamp buckets designed to house the new LED lights
- 2 retaining rings that work with the modified bucket
- An extra wire for the day time running light halo rings

Features:

- High and Low beam color temperature of 6000k
- True plug & play installation
- Easily integratable Half Circle Daytime Running Lights (DRL)
- DOT & Transport Canada compliant for on-road use

----------	-----------	-----------

Note: This is a universal stencil kit. Simply cut the roll of stripe masking to your desired length to add stripes to any car.

Pre-Application Surface Cleaner

Nothing is more important than proper preparation of a vehicle's painted surface prior to applying decals and stripes. Remove contaminants like silicones, wax, tree sap and bug guts for a clean and adherent surface. Nothing beats smooth decals and stripes that resist lifting because of a proper PRE-APPLICATION!

PREAPP	4 oz. Pre-App Cleaner.....	13.95 ea.!
--------	----------------------------	------------

SLIDE-ON Application Gel

Slide-On Application Gel will provide you the greatest advantage of a perfect application; time. Slide-On contains a special formula that resists drying until you are ready to squeegee the graphic into place. Only then does the decal "set up". With Slide-On time is on your side. The more Slide-On you use the more time you have.

SOAG	16 oz. Application Gel.....	19.95 ea.
------	-----------------------------	-----------

SLIDE-OVER UV Protectant

Help protect your decal from harsh elements and natural aging by applying our revolutionary Slide-Over UV Protectant & Conditioner. Slide-Over is not oily or greasy and does not attract dust. More importantly, unlike petroleum distillates, it does not draw moisture from the vinyl.

Company Policies

Hassle Free Returns

Ground Up Inc® prides itself on providing you with an excellent experience, so if you are not completely satisfied with your order for any reason, you may return parts for a full refund, credit, or even exchange within 30 days of receipt (not including any shipping). (All returns are subject to a 25% restocking fee after 30 days.) Return shipping and handling is the sole responsibility of the customer and Ground Up Inc® will not be held responsible for any additional costs on returned items. We cannot accept returns on any product that has been modified, altered, painted, installed, or disassembled in any way. Ground Up Inc® always recommends professional installation and is not responsible or liable for any labor fees associated with the installation, removal, modification, or repair of any product purchased regardless of circumstances. Ground Up Inc® is not responsible for any damage or discoloration of products incurred in relation to chemical products including cleaners, waxes, polishes, paints, etc. Gift certificates have no cash value and must be redeemed for merchandise only. **All returns must be approved by a customer service representative. Returns MUST be accompanied by a RMA # which will be provided by a customer service representative.**

Product Availability & Pricing

Every part listed in this catalog was available or planned as a reproduction at the time of printing. We reserve the right to substitute products of similar nature and quality. Prices in this catalog were effective at the time of printing and supersede those in all previous publications. Ground Up Inc® makes every effort to honor prices herein. However, due to increased costs of materials, etc. we reserve the right to change prices without notice.

Backorders

Your invoice will notate any items that were out of stock at the time of shipping. The unavailable items will be back ordered unless otherwise specified on your order form or verbally to a sales rep when placing an order by phone. Back orders are usually shipped as soon as the products arrive at our warehouse without prior notification. Ground Up Inc® will make an effort to contact the customer if the back order is more than 90 days old. If you wish to cancel a back ordered item, please notify our customer service department immediately.

Kit Products

Ground Up Inc is proud to offer many convenient and money saving kits. On occasion kit components will be short on stock. In that scenario the customer will have the choice of shipping out the in stock components while waiting for the missing components to be shipped when they come back in stock OR waiting for all the parts to be in stock before Ground Up ships the whole kit. **Kits are not eligible for further discount (i.e. Free shipping).**

Color Matches

Due to multiple manufacturers of products, color variations may occur. Slight color variations are common (especially among interior products) and do not constitute a defect. Ground Up Inc® will not be held responsible for return shipping on items for this reason.

Sales Tax Information

Orders shipped outside of CT may be exempt from sales tax. CT residents are required to add the appropriate current sales tax to all orders including shipping and handling. The current rate at time of printing is 6.35%.

Ordering Lefts and Rights

Some items in this catalog are presented as right hand (RH) or left hand (LH). RH and LH sides are determined by sitting in the vehicle. RH = passenger and LH = driver.

Trademark and Copyright

The Ground Up Inc® Parts and Accessories catalog is copyrighted. No part of this publication including text, photos, or illustrations may be reproduced without the prior written permission of Ground Up Inc®.

International Orders

Ground Up Inc® is happy to ship parts to overseas customers via International Economy shipping. Shipping can also be arranged per the customer and the packages will be boxed at our dock. Please call our sales department or send an email info@ss396.com to get a shipping quote for the parts that you wish to order.

The Ground Up Catalog could include technical inaccuracies or typographical errors. Ground Up does its best to provide accurate information but in the event an error occurs Ground Up does not assume liability. Ground Up reserves the right, in its sole discretion to correct any errors, make changes to products or prices without notice.

Shipping Information

Free Shipping

Orders over \$299.00 are eligible for free standard UPS Ground shipping on in stock items only. Oversize items, items which must be shipped truck freight, drop ship items, back ordered items and specially priced items are not eligible for free shipping. Ground Up Inc® reserves the right to charge shipping on any item that cannot be shipped regular UPS Ground even though an item may not be designated as "Oversize" or "Truck Freight" in this catalog. Free shipping can't be combined with any other discount.

Oversize Items

All items which are considered to be Oversize are items that can be shipped via UPS Ground at an Oversize rate indicating a minimum dimensional weight fee of 30lbs for Oversize or 70lbs for Oversize 2. Ground Up Inc® reserves the right to charge an Oversize fee on any item that is Oversize even though it may not be indicated as an Oversize item.

Truck Freight

Some products in this catalog are too large or heavy to be shipped via Ground freight and must be shipped via truck freight. Ground Up Inc® charges a minimum of \$199.00 for all orders which must be shipped via Truck Freight to a commercial address. Actual rates can be higher depending on your location and items ordered. Residential addresses require an additional \$150.00, so please provide a commercial address whenever possible. If a commercial address is not available, you can arrange pickup at the closest terminal. (Your sales rep can provide you with the location.) If an address is not deemed to be a commercial address by the carrier, additional charges may apply. These charges are the sole responsibility of the customer.

Expedited Shipping

Ground Up Inc® offers several expedited shipping methods for your convenience: UPS 3 Day Saver • UPS 2 Day Air • UPS Overnight Orders must be placed by 2:00 pm Mon-Th, 12pm Fri. Weekends and holidays do not count as shipping days. Ground Up Inc® is not responsible for lost or damaged goods due to carrier mishandling. You must contact our sales department for actual shipping rates.

Insurance

Each order is charged an insurance fee of \$1.00 per \$100.00 to insure the entire order and protect you completely from damages or loss in shipping.

APO/FPO

Parcel post is the only means of shipping to an APO or FPO address. Due to size restrictions, the maximum shipping box cannot exceed 72" width and girth combined. All military personal must write, call, or email us prior to ordering to ensure that the desired parts do not exceed the size limit.

Damage Claims

Ground Packages - Always check the contents of your delivery in the presence of the person delivering the merchandise. Should any damage be present, immediately notify our customer service department so that Ground Up Inc® can take all necessary steps to file a claim with the carrier and ensure a prompt replacement of the damaged goods. Replacement parts will normally be sent out within 2 business days after receipt of a claim number from the carrier. Ground Up Inc® is not responsible for any damaged good that have not been reported within 3 business days of receipt of delivery. If the customer files a claim with the carrier, Ground Up Inc® will not be responsible to pay for any replacements until the carrier pays the claim.

Truck Freight - You MUST check the contents of your delivery in the presence of the carrier! DO NOT ALLOW THE DELIVERY PERSON TO LEAVE PRIOR TO CHECKING YOUR SHIPMENT! Should there be any damage, you MUST note the damage on the Bill of Lading. If the damage is beyond repair, REFUSE THE SHIPMENT! The Bill of Lading is a legal document. Should you accept the shipment and sign the Bill of Lading stating the items you received are in good condition without checking them, there is NO RECOURSE with the carrier if the goods are later found to be damaged. If items are discovered to be damaged at the time of delivery and noted as damaged on the Bill of Lading or refused, immediately notify our customer service department so that Ground Up Inc® can take all steps necessary to ensure a prompt replacement or adjustment on the damaged goods.

Shortages

Always check the contents of your delivery to ensure that all parts ordered were received. If you are missing any items, first check your invoice to check for back-orders or drop shipments before calling our customer service department. If a shortage has occurred, please contact our customer service department immediately for a prompt replacement. Ground Up Inc® is not responsible for any delivery shortages after 3 business days.

Refusals

All refused deliveries will be subject to a 25% restocking fee plus return shipping charges (unless it was refused because of damage in shipping. See our damage claim policy above).

This 2020a catalog now supersedes all previous catalogs.
