**Pre-Application Surface Cleaner**

Nothing is more important than proper preparation of a vehicle's painted surface prior to applying decals and stripes. Remove contaminants like silicones, wax, tree sap and bug guts for a clean and adherent surface. Nothing beats smooth decals and stripes that resist lifting because of a proper PRE-APPLICATION!

**SLIDE-ON Application Gel**

Slide-On Application Gel will provide you the greatest advantage of a perfect application; time. Slide-On contains a special formula that resists drying until you are ready to squeegee the graphic into place. Only then does the decal "set up". With Slide-On time is on your side. The more Slide-On you use the more time you have.
